

AUTISM AWARENESS AND INCLUSION

We know that the most effective training comes from people who understand their own setting. Our DfE-funded 'Train the Trainer' packages help you to **deliver impactful, evidence-based autism training to staff** – with clarity, confidence, and minimal preparation time tailored to your setting.

Aligned with the latest DfE and EEF standards, the packages include:

-  A **recorded webinar** that provides essential context and planning guidance
-  A set of **ready-made training slides** with speaker notes, activities, and recommended reading
-  A **step-by-step video guide** that walks you through the training slides and how to use them effectively, available to watch at any time
