FREE RESOURCES AND CPD FROM WHOLE SCHOOL SEND

Looking for practical, evidence-informed approaches to strengthen inclusive practice? The Inclusive Practice Hub from Whole School SEND provides a growing library of searchable case studies, research reports and examples of effective inclusive practice from schools across the country.

The hub allows practitioners to search by phase, area of need, setting and impact, helping schools identify strategies that can be adapted to their own context. Featured resources include adaptive teaching, speech, language and communication, SEMH, attendance, AAC and wider inclusive classroom practice.

 Explore the Inclusive Practice Hub:
